

The **First Information Day** was an **International Seminar**, '*Advanced Creep Data for Plant Design & Life Extension*', held in Prague, Czech Republic, on 26 September 2003. Delegates attended from Japan and various European countries. Two international experts delivered talks on the experience of their organisations in the use of advanced creep data for plant design and life assessment. The proceedings of the seminar have been published, along with updated versions of the ECCC Recommendations Vols.1-5.
